AJAX, AXIOS
Firebase
CSS, SASS
HTML
GitHub
Visual Studio Code
Adobe Photoshop
Adobe Illustrator

PERSONAL SKILLS

Detail oriented
Creative mind
Keen learner
Time management
Team player
Motivated

ABOUT

I am new to web development and excited to discover new patterns in coding. I am currently competent in JavaScript, HTML, CSS and React. I love finding the middle ground for functionality, aesthetics, and user experience. As a believer in universal design, I analyze user experience and accessibility while building code.

EDUCATION

Web Development. Juno College (HackerYou). 2019
Packaging Design. Humber College. 2012 - 2015
Industrial Design. Ontario College of Arts and Design. 2008 - 2010

WORK EXPERIENCE

Delivery Driver | Uber Eats | 2019 - 2020
- Learned to manage time efficiently with an unrestricted schedule
- Self motivated to go to work everyday without set structure
- Multi-tasked to plan routes for efficiency and avoid traffic

Poll Clerk | Elections Canada | 2019
- Worked in pairs to ensure smooth voting for Canadian citizens
- Organized and referenced data to confirm eligible voters

PROJECTS

PokéMatch | jQuery SASS CSS HTML Responsive Accessible
- Flexbox and media queries for responsive design
- Tabindex property to ensure accessibility
- Discovered the beauty of using BEM with SASS

Fridge Verses | React Axios Firebase SASS Responsive Accessible
- Mob programming with 3 colleagues. Resolved many merge conflicts
- Pass data from child to parent component by passing functions as props
- Store and retrieve data to and from Firebase with .unshift and .map methods
